

Week 13 - Categorical outcomes: Monday exit ticket

Week 13 – Monday exit ticket

Name: _____

Date: _____

Instructions

Work through each item below. Write your final response in the space provided. Show enough work that another reader can follow your reasoning.

1. After cardiac arrest, patients in a trial received a blood thinner (treatment) or not (control). The outcome is whether they survived.

Group	Survived	Died	Total
Control	11	39	50
Treatment	14	26	40

- (a) Compute the **risk** (proportion) of survival in each group.
- (b) Compute the **risk difference** (treatment minus control) and say what it means in one sentence.
